

SUMMIT
HEALTH

Working together to care for our community

Be part of a local **Medicare Advantage plan** that people in our community can count on.

Summit Health has partnered with local doctors and hospitals to bring better coordinated care to people in our community.

Our **Medicare Advantage** plans give members access to the providers they already know and trust while getting coverage that's right for them.

over 

Summit Health is built on the partnership between healthcare providers and health systems across Eastern Oregon. Together, we're dedicated to making affordable, high-quality care accessible to your patients.

With coverage that's supported by the great care and services your patients have come to expect, we **thank you** for making sure they continue to get the quality care they deserve.

“We appreciate the valued partnerships we have with the many doctors and hospitals in Eastern Oregon. We're committed to helping you provide the care your patients need for better health and overall wellness.”

– Sean Jessup, President, Summit Health
